Trim the ‘Experts,’ Trust the Locals

By DAVID BROOKS

On Tuesday, The Times ran a front-page article on the chaotic efforts to clean up the oil washing around the Gulf of Mexico. Campbell Robertson reported on an incident in which boats that were supposed to be laying boom were, in fact, anchored on the wrong side of a bay in Louisiana. They were helpless as oil oozed in from the gulf, and BP had no way of contacting the workers to get the boats moving.

The article described a cleanup operation that is overwhelmed. “From the beginning,” Robertson wrote, “the effort has been bedeviled by a lack of preparation, organization, urgency and clear lines of authority among federal, state and local officials, as well as BP.”

The Occupy Sandy Local Business Registry is a fund raising effort that puts 100% of the funds raised for needed tools, materials and goods directly in the hands of locally owned businesses in the areas hit hardest by Superstorm Sandy. The items purchased in turn are delivered directly from store to workers and recovering family. It’s like an online wedding registry that does twice the good. To support our work please consider buying essential goods, while providing financial support to businesses in Sandy’s aftermath.
